VIP Speech

Given by Mr. Vũ Đức Giang, General Director of Vinatex

Date & Time: 9 April, 2008 during the opening ceremony of the expo

Distinguished guests, Ladies and Gentlemen:

Firstly, allow me on behalf of Vietnam National Textile & Garment Group to extend my sincere thanks to all distinguished guests, exhibitors, manufacturers and suppliers of textile and garment equipment and accessories, as well as domestic and foreign businesses to the Opening Ceremony of the 18th Saigon Textile and Garment Expo in Ho Chi Minh International Exhibition and Convention Centre. The exhibition has received great support from Vietnam Ministry of Industry, Vietnam Textile and Apparel Association, and it is co-organized by Vietnam National Textile and Garment Group, Vietnam Chamber of Commerce and Industry, and CP Exhibition Hongkong.

The exhibition this year covers an area of 12.000 square meters - increasing to 50% of area compared with the same exhibition last year, has attracted 395 manufacturers and traders coming from 27 countries and territories in the world. It is to introduce to visitors advanced equipments and accessories used for the textile and garment industry. It is our hope that the exhibition will facilitate the closer business ties between domestic and foreign businesses. It is also a good opportunity for Vietnamese manufactures and traders to make their investment choices and to get access to the most advanced technology and equipment. By this way, it helps to bring Vietnam textile and garment industry to the regional and global development level.

Ladies and Gentlemen:

Vietnam textile and garment industry entered the year 2008 with a lot of difficulties and challenges. Free trade in textile and garment industry makes the competition harsher in the world market. Vietnam has faced strong competition coming from world's biggest textile and garment manufactures such as China, India, Pakistan, ect ... In order to further develop in this context, Vietnam textile and garment industry in general and Vietnam National Textile and Garment Group in particular, have to continue realizing the strategy of speeding up investment in the textile and garment industry, which was approved by the Government. It is also essential to implement the policy of step by step moving pollutant factories into industrial parks, leaving a green and clean environment for the city centre. Moreover, cooperation with provincial authorities is promoted to create more jobs for labourers, as well as to push up export. Further investment in advanced equipment is needed to create a source of high quality fabric, meeting export demand. Besides promoting the equization, Vietnam National Textile and Garment Corporation also encourages other types of business such as joint-venture, foreign direct investment in fabric and textile manufacturing, printing and dyeing, accessories producing. Vinatex is establishing Centres of trading and supplying accessories in Hanoi and Hochiminh City. Those efforts aim to make Vietnam become an attractive destination to not only exhibitors, investors, but also textile and garment

producers and importers, and to make Vietnam be one of the worlds's leading textile and garment manufacturers and exporters.

Ladies and Gentlemen:

On this occasion, may I, once again, convey my sincere appreciation to leaders of Ministry of Industry and Trade, Ministry of Planning and Investment, People's Committee of Hanoi City, HoChiMinh City People's Committee, other provinces and cities, governmental departments and agencies, the Consular corps and trade commissions, representatives of mass media for share your presence with us at the Opening Ceremony of Saigon Textile and Garment Expo 2008. May I wish you all good health and every success.

May I now officially declare the opening of the 18th Saigon Textile and Garment Expo

Thank you very much.
