Opening Ceremony Speech 1

Ms. Hồ Thị Kim Thoa, Vice Minister, Ministry of Industry and Trade

Distinguished guests, Ladies and Gentlemen

First of all, on behalf of the Ministry of Industry and Trade, I would like to extend my warm welcome to all distinguished guests, exhibitors, media agencies to the Opening ceremony of the Vietnam Saigon Textile and Garment Expo 2011 in HCMC.

Textile and garment industry is a spearhead industry of the country. It plays an important role in the country's export and creates a large number of jobs. Over the past few years, the industry has witnessed high growth rates, improved competitiveness, high turnover, higher incomes for workers in the industry as well as higher contribution to the national budget. These achievements has made textile and garment industry to become the one that has the country's largest export turnover: export turnover reached 9.1 billion US dollars and 11.2 billion

US dollars in 2009 and 2010 respectively.

The industry has also continuously improve business environment with massive incentives for investors in order to take advantage of the shift in production in the textile and garment industry from China, South Korea, Taiwan, and Hongkong... With export turnover of 11.2 billion US dollars in 2010, a year on year increase of 29%, Vietnam has become one of the world's big producers and exporters of textile and garment products. Therefore it also becomes an attractive destination for the industry's exhibitors, manufacturers and investors from around the world.

The development plan for the Vietnam's textile and garment industry to 2015 is aimed at making the industry to be in the top 5 world's biggest textile and garment exporters, with export turnover of 18 billion US dollars, the ratio of domestic contribution of 60%. The industry is expected to be based on advanced technology, effective quality control with int'l standards. To this end, having a good cooperation with world's leading partners in the field plays an important role in the future success of the Vietnam's textile and garment industry.

The Saigontex 2011 covers a total area of nearly 7000 m², attracts more than 260 exhibitors coming from 20 countries and territories. There are big names in the textile and garment industry from China, France, Germany, Canada, HongKong, India, Italy, Japan, South Korea, Malaysia, Singapore, Sweden, Switzerland, Thailand, Turkey, the United Kingdom, Taiwan.....This is an opportunity for Vietnamese companies to be kept updated with advanced technology, new machinery, which helps them increase their production and competitiveness. This is also a good opportunity for domestic and foreign companies to foster their business cooperation.

I believe under the government's clear direction, detailed guidance of the Ministry of Industry and Trade and with great efforts of the textile and garment industry, the Vietnam Saigon Textile and Garment Expo will continue to be a prestigious exhibition in Vietnam and the region. It will be an attractive venue not only for the industry's manufacturers and businesses but also for int'l and domestic investors and consumers.

Once again, on behalf of the Ministry of Industry and Trade, I would like to wish distinguished guests, ladies and gentlemen good health and every success. Wish the exhibitors, domestic and foreign enterprises a great success. Wish the Vietnam Saigon Textile and Garment 2011 a great success.

Thank you.

Opening Ceremony Speech 2

Mr. Nguyen Trung Tin, Vice chairperson of Hochiminh City People Committee of Vietnam

Ms. Hồ Thị Kim Thoa, Vice Minister, Ministry of Industry and Trade
Mr. Hoàng Văn Dũng, First Vice Chairman of Vietnam Chamber of Commerce and Industry
Ladies and Gentlemen

Today, in the joyful atmosphere of the Opening Ceremony of the Vietnam Saigon Textile and Garment Expo organized by the Vietnam National Textile and Garment Group, on behalf of the People's Committee of HCMC, I would like to extend my warm welcome to distinguished guests, domestic and international producers and manufacturers. May I wish you all good health, happiness and every success.

Ladies and Gentlemen:

With a total population of nearly 86 million, Vietnam is the third most populous country in Southeast Asia (after Philippines and Indonesia) and the thirteenth most populous country in the world. It is therefore seen as a potential and attractive market. Textile and garment is one of the spearhead industries of the country with export revenue is considerable relative to other industries of Vietnam in general and HCMC in particular. Being economic centre of the entire country and a vibrant city, HCMC authority always supports and creates favourable conditions for enterprises to invest and to do business in the city, especially in their process to integrate into the global economy.

Despite difficulties the world economy facing in 2010, HCMC authority has adopted proper and effective measures. Therefore, with stable social political environment, the business environment of the city has greatly improved. This has facilitated plans of enterprises concerning their investment, production and export activities. Markets for the city's exports have continuously expanded. These results are the testimony for great efforts that the city business community has made given the world's economic recession.

With a total population of nearly 7.2 billion and average per capita income of 2800 US dollars in 2010, the city accounts for 23% of retail turnover, 17% of industrial production, and over 29% of the country's export turnover. Textile and garment industry has witnessed strong growth. In 2010, export turnover of textile and garment and leather and shoes industry has reached more than 4.5 billion US dollars, accounting for 21% of the city's total export turnover, and 28% of the country's export turnover for textile, garment, shoes and leather products.

Over the past years, although facing a lot of difficulties, the textile and garment industry has making a great deal of efforts, which has been paid off. The industry's products have gain trust of consumers and were displayed at the Vietnam Fashion Fair. As far as I know, at this event there is a fashion gala show. This is a good opportunity for the industry to develop its name through various marketing channels.

Ladies and Gentlemen:

I highly value efforts of the Vietnam National Textile and Garment Group and the other organizers. I believe that this exhibition will provide the industry's enterprises with advanced technology and machinery, which facilitate them to produce high quality products and to have more independent sources of accessories. I also hope that this exhibition will bring a lot of opportunities for domestic enterprises to get access to the most advanced and appropriate technology. This is also an opportunity to foster cooperation, exchange experiences among domestic and int'l enterprises.

Once again, may I wish the organizers, domestic and int'l exhibitors a great success. Wish a great cooperation between Vietnamese and int'l enterprises.

Wish the 21st Saigontex in HCMC today a great success.

Wish you all good health. Thank you

Opening Ceremony Speech 3

Mr. Hoang Van Dung,

First Vice Chairman of Vietnam Chamber of Commerce and Industry of Vietnam

Ms. Hồ Thị Kim Thoa – Vice Minister – Ministry of Industry and Trade

Mr. Nguyễn Trung Tín – Vice Chairman, HCMC People's Committee

Distinguished guests, ladies and gentlemen

On behalf of Vietnam Chamber of Commerce and Industry, I would like to warmly welcome distinguished guests, domestic and international exhibitors to the Opening Ceremony of the 21st Vietnam Saigon Textile and Garment Expo 2011, Vietnam Saigon Fabric and Garment Accessories Expo 2011.

Ladies and Gentlemen:

Textile and garment is a spearhead industry of the country, contributing greatly to the country's export and creating a large number of jobs. With its comparative advantages, enterprises in the field are making every effort to bring in modern technology to improve products quality, reduce cost prices in order to make themselves more competitive in the domestic and export markets.

VCCI together with the Vietnam National Textile and Garment Group and CP Exhibition Hongkong has made this event to become one of the leading trade events in the textile and garment industry. This is the forum for enterprises to keep updated with information concerning the industry's development. This is also a place for enterprises to find suitable materials, machinery and technology in order to increase the ratio of domestic production. Given the intense competition in the world market, the exhibition plays a key role in the development of the industry.

Ladies and Gentlemen:

At this exhibition, advanced technology and machinery are displayed together with workshops concerning E-management and the LEAN model in the textile and garment industry. I hope that this will bring opportunities for Vietnam's enterprises to exchange information, experiences for a greater success in the future.

I hope that with this exhibition, Vietnam's textile and garment enterprises will find for themselves suitable technology and machinery, which will help them improve their products quality, making them more competitive in markets.

On this occasion, I would like to sincerely thank relevant ministries and agencies, media agencies, domestic and international trade promotion organizations for their contribution to the success of this event. May I wish you all good health, happiness, and every success. Wish the exhibition a great success.

Thank you

Opening Ceremony Speech 4

Mr. Vu Duc Giang - Chairman of Vinatex and Vitas

Ms. Hồ Thị Kim Thoa, Vice Minister, Ministry of Industry and Trade

Mr. Hoàng Văn Dũng, First Vice Chairman of Vietnam Chamber of Commerce & Industry

Distinguished guests

First of all, allow me on behalf of the Vietnam National Textile and Garment Group to extend our warm welcome and sincere thanks to distinguished guests, exhibitors, domestic and foreign companies for being with us at the Opening Ceremony of the 21st Vietnam Saigon Textile and Garment 2011 in HCMC. The event is sponsored by the Vietnam Ministry of Industry and Trade, Vietnam Textile and Apparel Association and is organized by the Vietnam National Textile and Garment Group, Vietnam Chamber of

Commerce and Industry, and CP Exhibition Hongkong, and Vietcham Expo

The exhibition covers a total area of 7000 square meter, with more than 260 exhibitors coming from 20 countries and territories, such as China, France, German, Canada, HongKong, India, Italy, Japan, South Korea, Malaysia, Singapore, Sweden, Switzerland, Taiwan, Thailand, Turkey, the UK, and Vietnam. The exhibition aims to display machinery, technology, and accessories serving the textile and garment industry of Vietnam and the region.

Vietnam's textile and garment industry in 2010 has achieved an impressive growth rate, with export value of 11.2 billion US dollars compared to that of 9.1 billion US dollars in 2009. Therefore, we hold a strong belief that we can reach the target of 12.5 to 13 billion US dollars for export turnover in 2011. However, it is a big challenge for the industry to maintain a strong growth rate as we are facing the increasingly intense competition from other countries. In order to implement the strategy of sustainable development for the industry till 2015, and supply markets with high quality products, Vietnam's textile and garment industry attaches great importance to new technology and machinery which satisfy criteria such as high productivity, good quality and environment friendly. Vietnam Saigon Textile and Garment Expo is also an opportunity for textile and garment companies to find and select suitable machinery and technology developed by advanced industrialized countries as well as find suitable sources of accessories..

On this occasion, I would like once again to extend our sincere thanks to leaders of the Ministry of Industry and Trade, Ministry of Planning and Investment, People's Committee of Ha Noi city, People's Committee of Ho Chi Minh City, People's Committee of other provinces in the country, governmental agencies, consulates and trade representatives, Vietnam Chamber of Commerce and Industry, domestic and foreign companies, representatives from local and national media agencies for sparing your precious time with us at this event.

May I wish you all good health and every success.

I would now like to declare the opening of the Saigon Textile and Garment Expo 2011 in HCMC
Thank you very much.
